

Prescription Discount Card

Helping you save on your medications

Dear SAG-AFTRA Member,

We are delighted to welcome you to our premier pharmacy benefits program! You can enjoy saving on your prescription drug needs immediately by using your new pharmacy card at participating local pharmacies.

This prescription discount card is simple and easy to use. There are no health restrictions or paperwork. You can use the card immediately and as many times as needed. When you present your card to a participating provider, you will receive a discount at the time of purchase. On average, customers save 41% on most prescriptions!

How to Use

Cut out the card below. Present your card along with your prescription to one of 60,000 participating pharmacies, which include many popular pharmacies near you. Visit RxPriceQuotes.com or call 800-800-7616 to find participating pharmacies in your area and to check pricing for your medications.

If you DO NOT HAVE insurance:

You are paying out of pocket retail prices for your prescriptions anyway - why not save anywhere from 10% to 85% on most medications?

If you HAVE insurance:

- Give the pharmacist your insurance card AND your discount card to find out which card offers the most savings on your prescription medication.
- Some medications are not covered by your insurance plan such as experimental drugs and ones that treat acne, hair loss, weight loss, cancer, male performance, etc.

Pharmacy Discounts are Not Insurance and are Not Intended as a Substitute for Insurance. The discount is only available at participating pharmacies. This plan does not make payments directly to the providers of medical services. The plan member is obligated to pay for all healthcare services but will receive a discount from those health-care providers who have contracted with the discount plan organization. The plan is not insurance coverage and does not meet the minimum creditable coverage requirements under the Affordable Care Act.
