

For American Society of Mechanical Engineers Members And Their Spouses

Underwritten by New York Life Insurance Company

INSURE YOUR INCOME—YOUR MOST VALUABLE ASSET

Your most important asset is your ability to earn income. Even if you are young and healthy, a serious illness or injury could put you out of work for months or even years - thus jeopardizing your livelihood. A reliable source of disability income protection is this Group Disability Income Insurance exclusively for ASME members.

Even if you have some disability insurance through your employer, it may not be enough. Many employers provide only a short-term salary continuation policy or short-term disability income policy. This Policy can be used to supplement benefits provided by your employer policy or as primary protection.

This Policy is designed to provide you with a regular monthly income when you are totally disabled and unable to work as the result of a covered illness or injury.

WHO IS ELIGIBLE?

ASME members under age 70 who are at FULL-TIME WORK are eligible to request coverage, provided their gross annual income is at least \$20,000.

"FULL-TIME WORK" means the active performance of the regular duties of your normal occupation for pay or profit on the basis of at least 30 hours per week at the place such duties are performed.

This coverage is only available to residents of the United States (except VT and territories) and Puerto Rico. This coverage is not available to residents of Canada.

If you have any questions or would like additional information, please call the Administrator at 1-800-289-ASME(2763).

You may request coverage for your lawful spouse who is under age 60, not insured as a member and actively performing the normal activities of a person in good health of like age with the same resident requirements as for members. Your spouse can be working for you, for someone else, or be a homemaker. You, the member, must be insured for a minimum of \$600 a month for your spouse to be eligible.

HOW IT WORKS

YOU CHOOSE YOUR COVERAGE, MONTHLY BENEFIT AND WAITING PERIOD

Choice of Three Policies: The Career Policy, the Five-Year Policy, or the Inflation-Fighter Career Policy.

All three policies pay monthly benefits when you are Totally Disabled: prevented by a covered illness or injury from performing the material and substantial duties of your usual occupation, provided you are not otherwise working for pay or profit.

Benefits begin at the end of the waiting period, provided you are Totally Disabled.

Note: Benefits for disabilities due to Mental Disorders are limited to a maximum of 24 months, regardless of Policy choice.

Definition of Total Disability for Spouse: Incapacity, due to a covered illness or accident, which prevents you to perform the material and substantial duties of the spouse's regular occupation for pay or profit or from performing all the customary duties of a homemaker, provided he/she is not engaged in any occupation for pay or profit.

Career Policy: If you are Totally Disabled before age 63, benefits are payable up to age 65. There is a two year maximum benefit for Total Disabilities starting at ages 63 through 74.

Five-Year Policy: Benefits are payable up to five years for Total Disabilities starting before age 60. For Total Disabilities starting at ages 60 through age 62, benefits may continue up to age 65. For Total Disabilities starting at ages 63 through 74, benefits may continue for up to two years.

Inflation-Fighter Career Policy: This Policy offers disability coverage that, once benefits begin, can help keep pace with the rate of inflation. Monthly benefits will be adjusted annually from the date of disability if you are Totally Disabled prior to age 63. Adjustments may be made to the Monthly Benefit paid in the second and each succeeding year. The Adjustment amount will be based on the Consumer Price Index for Urban Consumers (CPI-U) up to a maximum 5% increase per year and an overall maximum increase of one times the original benefit.* Once you are no longer disabled and benefit payments stop, the Monthly Benefit returns to the original option amount.

Benefits are payable up to age 65 for Total Disabilities starting before age 63. After age 62, the inflation-fighter feature is no longer applicable and, for Total Disabilities starting at ages 63 through 74, benefits will be payable in accordance with the basic Career Policy (i.e., up to two years maximum).

*A "catch up" feature allows disabled members to receive benefit increases in excess of the 5% annual maximum if the prior years' compounded rates of inflation were less than 5% annually. Contact the Administrator for additional details on this feature.

Choice of Monthly Benefits-Up to \$7,500 per Month

You have a wide choice of Monthly Benefit Options, from \$150 to \$7,500 (in \$150 units). However, members age 65 through 69 may not request a Monthly Benefit Option in excess of \$3,750. The option you choose, together with any other disability income insurance you may have, cannot exceed 60% of your gross monthly earned income. Depending on your state of residence, you may be eligible to receive disability benefits under a state policy. You may wish to check if your state offers this type of benefit.

QUESTIONS?

NOTE: On the premium due date on or immediately after reaching age 65, benefits in excess of \$3,750 per month will reduce to \$3,750, and on the premium due date on or immediately after reaching age 70, benefits in excess of \$1,800 per month will reduce to \$1,800. Gross monthly earned income means $1/12^{th}$ of your wages, salaries, commissions, fees and other amounts received for personal services - before deduction of income or social insurance taxes and after deduction of the normal business expenses which are deductiblefor income tax purposes - for the immediately preceding 12-month period. It does not include income from interest, dividends, rent, royalties, annuities, other insurance or other unearned income.

Choice of Waiting Periods

You also have a choice of four waiting periods before benefit payments begin: 30, 90, 180, or 365 days. A waiting period is the number of consecutive days that you must be Totally Disabled before benefits commence. You should choose one that will provide benefits when your employer-provided salary continuation insurance runs out. Coverage with a longer waiting period is less expensive.

Spouse Benefit Available: If you apply for, or are covered under, either member coverage, you may apply for coverage for your lawful spouse, to provide \$500 in benefits per month, payable up to 2 years, with 30-day elimination (waiting) period.

FEATURES

Note: Benefits for Rehabilitation, Covered Partial Disability, Specific Indemnities and Non-Disabling Injuries Due to Accident, Transplants and Survivor Benefits will NOT apply to spouse coverage. Waiver of Premium only applies when member premium contributions are waived.

Waiver of Premium

After you have been Totally Disabled for six consecutive months and you begin to receive benefits for Total Disability, all future premium contributions under this coverage will be waived for as long as you receive benefits for that disability.

Waiver of premium for spouse coverage applies only when member premium contributions are waived.

Membership Dues Waived During Disability

Once you begin to receive benefits for Total Disability, future membership dues becoming due will be paid for you by the ASME Group Disability Income. (Contact the Administrator for information about how to submit your dues for payment.)

Benefits for Recurring Disability

Successive periods of disability which are due to the same or related causes will be considered a single period of disability unless separated by return to FULL-TIME WORK for three consecutive months or more.

Rehabilitation Benefit

This benefit is designed to help certain disabled individuals return to the work force. Under this provision, a professional rehabilitation staff reviews case histories and identifies those individuals who appear to have the greatest likelihood of rehabilitation. Individuals selected by New York Life Insurance Company will be offered the option of participating in a rehabilitation program at no cost to them. Participation is voluntary and benefits will not be reduced due to participation in the program. Additionally, participation in a rehabilitation program for more than a total of 24 months will not be approved in connection with one period of Covered Total Disability.

Partial Disability Benefit

While you are recovering from a Covered Total Disability, you may be eligible to receive a partial disability benefit even though you return to work. If you return to work immediately following a period of Covered Total Disability for which benefits were payable, you may continue to receive your monthly disability benefit until the earlier of the maximum benefit period payable for Covered Total Disability or 24 monthly payments. However, the amount of your Monthly Benefit Option, together with all other disability income benefits and income you earn that month, cannot exceed 80% of your average gross monthly earned income for the 12 months before Covered Total Disability started.

Specific Indemnities & Non-Disabling Injuries Due to Accident

For specified fractures and dislocations due to an accident, you are guaranteed a minimum payment according to a schedule described in the Certificate of Insurance, regardless of whether or not you are actually disabled. Also, if you are injured but not disabled, you may receive up to one-fourth of one month's indemnity for doctor's bills and x-ray expenses.

Organ Transplant Benefit

If you have been insured under this policy for at least six months and undergo a surgical procedure to donate an organ for transplant, you will be considered Totally Disabled. No waiting period will apply, and benefits will be payable from the first day of Covered Total Disability. However, any portion of the Monthly Benefit Option which became effective in the six months immediately prior to such organ donation will not be payable for this Covered Total Disability.

If you suffer a Covered Disability as a result of an organ donation, you Elimination Period will be 0 days.

Survivor Benefit

If you die – from any cause – while receiving benefits for Total Disability, a death benefit equal to three times the Monthly Benefit Option in force on the date of your death will be paid to your surviving relative(s) in the following order of survival: your spouse; or your children, equally; or your brothers and sisters, equally; otherwise, if there is no surviving relative, to the executor or administrator of your estate.

YOUR COST

Quarterly Premium Contributions

The insurance cost is based on your attained age (spouse age for spouse coverage) when coverage becomes effective and increases on the premium due date on or immediately after the date you (your spouse) reach a higher age bracket.

The premium contributions shown reflect the current rate and benefit structure. Premium contributions may be changed by New York Life on any premium due date and on any date on which benefits are changed. However, your rates may change only if they are changed for all others in the same class of insureds. For example, a class of insureds is a group of people with the same issue age. Benefit option amounts are not guaranteed and are subject to change by agreement between New York Life Insurance Company and the Trustee under Trust Agreement with the American Society of Mechanical Engineers.

Premium contributions will vary depending on the options and amounts chosen.

How to Calculate the Quarterly Cost

To find the quarterly insurance cost for benefits in excess of \$150 (one unit) per month, multiply the cost shown at your age, for your choice of benefits, policy, and waiting period, by the number of \$150 units desired.

FOR EXAMPLE: If you are age 44 and choose the Career Policy with a 30-day waiting period, and a \$1,050 monthly benefit (7 units), multiply \$6.95 (\$5.91 with the 15% premium credit) by 7 = \$48.65 (\$41.37 with the 15% premium credit). This is your quarterly cost.

If you wish to pay annually, the premium is four times the quarterly premium; if you prefer to pay semiannually, the premium is two times the quarterly cost. If you wish to pay monthly with the Electronic Funds Transfer (EFT) Option, divide the quarterly cost by three.

ADDITIONAL INFORMATION

Effective Date

Note: Residents of NC: Any reference to "performing the normal activities of a person in good health" is replaced by the requirement that the health status of any proposed insured person remains the same as stated in your application.

You will become insured on the date specified by New York Life Insurance Company provided the first premium contribution has been paid, satisfactory evidence of insurability has been submitted, and you are performing the normal activities of a person in good health on that date. If you are not performing your normal activities as required, coverage will not become effective until the day you are performing such normal activities provided such date is within three months of the date, insurance would have been effective and you are still eligible for insurance. For spouse coverage, member coverage must be in force.

Payment of a premium contribution for insurance does not mean that there is any coverage before the effective date as specified by New York Life.

Note: There are instances where the company may be able to offer insurance (at the same premium) by eliminating coverage for a specific impairment or disease.

When Coverage Ends

Once coverage is validly in force, it may be continued to the premium due date on or immediately after you reach age 75, unless you cease FULL-TIME WORK, other than for reasons of disability; cease to be an ASME member; fail to pay premium contributions when due; enter full-time active duty in the armed forces (coverage may be restored upon termination of Active Duty Status, subject to policy guidelines); or the group policy is modified or terminated by the Trustee or New York Life Insurance Company to end insurance for the group of insureds to which you belong, or the day before the day the policy terminates. Spouse coverage will terminate when member coverage ends or, if earlier, at spouse at age of 65, if premiums are notpaid, or upon divorce or legal separation.

Exclusions and Limitations

The Policy does not provide member or spouse benefits for: any disability that occurs during or is due or related to intentionally self-inflicted injury while sane or insane, declared or undeclared war or any act thereof, military service, or incarceration for or participation in (except as a victim) an illegal occupation/activity or the commission of a crime; or any disability that is due or related to pregnancy or childbirth (except complications thereof), any disability that does not require a doctor's regular care (regular care of doctor does not include yourself, a close relative or a household member) or any impairment or disease specifically excluded from your coverage.

The Policy limits benefits for disabilities due to Mental Disorders to a maximum of 24 monthly payments. No benefits will be paid unless the disability occurs while you are insured under the Policy and you are under the care of a licensed physician or surgeon other than yourself (or member of your immediate family or household) during the period of disability. Benefits will not be paid for a disability that is classified as or related to a PRE-EXISTING CONDITION for up to two years following the effective date of coverage.

A Preexisting Condition is defined as an illness or any condition related to such illness for which a person consults a doctor, receives medical services or supplies or takes any medication during the 12 month period immediate before the effective date of insurance, if such illness or condition is not fully disclosed on the application for insurance, Any Impairment Restriction, or illness or condition for which the insured has not consulted a doctor, taken medication or received medical services during the 12 month period following the effective date or coverage or which was fully disclosed on the application for insurance, is not considered a Preexisting Condition.
